NOTE: Due to an unknown error I was not able to get a screenshot of the Java version, but it was listed as:

java version "10.0.2" 2018-07-17

Java(TM) SE Runtime Environment 18.3 (build 10.0.2+13)

Java HotSpot(TM) 64-Bit Server VM 18.3 (build 10.0.2+13, mixed mode)

However, I have no idea where to get a compiler, as the instructions do not specify what I need to download to get one.
